

PLAYING BY SHEET MUSIC

If you like the idea of having someone else figure out the rhythm and melody chords, there's a boat load of sheet music out there. And even if you don't know how to read music, it's pretty graphical – when it goes up in pitch the notes are higher on the staff and when it goes down in pitch the notes are lower.

With most Autoharp music, the rhythm chords are written above the staff and the melody chords are written below the staff. Sometimes the / symbol is written to indicate that you should repeat the particular chord.
